

EDVEDUM

ACADEMIC B2B PLATFORM

Institutional CBT & Academic Assessment Platform

Manage. Assess. Analyse. Improve.

A unified examination, student management, and performance analytics platform purpose-built for Schools, Coaching Institutes, JEE/NEET Hubs, and Academic Foundations.

CBT TEST SERIES

NTA-standard online CBT examination environment for NEET & JEE.

STUDENT ROSTER

Bulk CSV onboarding, seat limits, and roll number batch management.

INSTITUTE ANALYTICS

Subject accuracy, class rank distribution, and performance audits.

STUDY RESOURCES

High-yield formula handbooks and digital eBook assignments.

PRIMARY AUDIENCE: Schools • Coaching Institutes • JEE/NEET Centres • Olympiad Foundations

INSTITUTIONAL CHALLENGE & SOLUTION

Why Partner with EDVEDUM?

Traditional assessment methods fail to prepare students for National Computer-Based Tests (CBT). Edvedum bridges the gap.

THE INSTITUTIONAL PROBLEM

- **Offline Exam Limitations**

Paper tests fail to simulate real NTA CBT interfaces, leaving students anxious during actual entrance exams.

- **Manual Roster & Grading**

Hours wasted on manual mark aggregation, delayed result declarations, and error-prone score compilation.

- **Lack of Topic-Level Insights**

Traditional report cards show total marks but fail to pinpoint formula errors, rushed attempts, or specific weak chapters.

- **Fragmented Resources**

eBooks, question banks, batch rosters, and test schedules scattered across disconnected systems.

THE EDVEDUM ADVANTAGE

- ' **Full NTA CBT Simulation**

Identical interface with question palette, review tags, clear response, and precise countdown timers.

- ' **Automated Instant Grading**

Immediate result generation upon test submission, eliminating manual scoring delays completely.

- ' **Data-Driven Analytics**

Deep analytics covering class mean accuracy, subject breakdown, negative mark impact, and rank distribution.

- ' **Unified Control Portal**

Manage students, batches, test assignments, eBooks, rankings, and reports from one secure dashboard.

REAL-TIME OVERVIEW & METRICS

Institution Command Centre

A centralized dashboard providing institution administrators real-time visibility into academic operations.

TOTAL STUDENTS 250 Enrolled	SEAT LICENSES 500 Total Seats	ACTIVE BATCHES 8 Academic Groups	TEST COMPLETION 94.2% Participation
--	--	---	--

Core Command Capabilities

Live Academic Health Snapshot

Monitor enrolled student count, used vs available seat license capacity, and active batch roster status in real time.

Recent Assessment Activity Feed

Track recently assigned CBT mock tests, submission velocity, and upcoming test deadlines.

Quick Action Dispatcher

Enrol individual students, trigger bulk CSV uploads, assign new CBT test series, or send test reminders in a single click.

Institute Performance Indicators

Review overall institution mean accuracy percentage, top test score, and active batch participation rates.

Cross-Portal Seamless Navigation

Instant access to Student Roster, Batches, AIETS Test Series, eBook Library, Analytics, and Reports.

ROSTER MANAGEMENT & BULK ONBOARDING

Student Management System

Effortlessly manage student profiles, roll numbers, exam targets, and bulk CSV enrollment with seat capacity controls.

FEATURE HIGHLIGHT: Bulk Student CSV Import

Institutions can onboard hundreds of students in seconds by uploading a structured CSV file. The system automatically validates fields, verifies total license seat limits, assigns students to specified batches, and generates secure credentials.

Supported CSV Roster Template Fields: name, email, roll_number, class, target_exam, phone, batch_name

Comprehensive Student Roster Features

Individual Student Enrollment

Enrol students manually with name, email, roll number, class level, and target exam (NEET / JEE / Foundation).

Batch Mapping & Transfers

Assign students to academic batches upon enrollment or seamlessly move students between batches as rosters evolve.

Credential Generation & Resets

Instantly generate or regenerate temporary passwords for students with automated notification alerts.

Status & Access Control

Suspend or restore student platform access with single-click block/unblock status controls.

License Seat Capacity Enforcement

Strict seat capacity tracking ensures institutions stay within purchased license quotas (e.g. 250 Total / 185 Used).

ACADEMIC GROUPING & ROSTER ORGANISATION

Batch Management System

Organise students into target-specific academic batches for streamlined test assignment and performance tracking.

NEET 2027 Droppers Alpha

Class 12+ • NEET-UG • Capacity: 60 Students

JEE Main 11th Foundation

Class 11 • JEE Main • Capacity: 50 Students

Class 10 Olympiad Batch

Class 10 • Foundation • Capacity: 40 Students

Key Batch Operations

Custom Academic Year & Faculty Mapping

Assign start/end dates, academic year tags, and faculty leads to each batch.

Batch-Level Test Assignment

Target CBT mock tests directly to specific batches without affecting other cohorts.

Comparative Batch Performance Analytics

Compare mean score, accuracy rate, and test completion percentages across different batches.

NTA & JEE STANDARD MOCK EXAMS

AIETS / CBT Test Series Catalog

Access platform-approved test series packages for NEET-UG, JEE Main & Advanced, and Foundation examinations.

AIETS NEET-UG 2027 All India Grand Mock Series

NEET-UG | 18 Full & Part Mocks

Comprehensive NTA-pattern test series featuring Biology, Chemistry, and Physics with detailed solution keys.

AIETS JEE Main & Advanced National Ranker Pack 2027

JEE Main & Adv | 15 CBT Tests

Kota-curated high-yield test series simulating exact JEE CBT timing, numerical integer inputs, and negative marking.

Class 10 Foundation & Olympiad Mastery Series

Foundation | 10 Mocks

Structured tests covering Class 10 Mathematics, Science, and Mental Ability for Board & Olympiad preparation.

CBT Examination Standards & Proctored Environment

- Exact NTA CBT Exam Interface (Question Palette, Mark for Review, Clear Response).
- Automated Timer with Subject-wise Section Switching Controls.
- Instant Score & Accuracy Analysis immediately upon test submission.
- Detailed Question-by-Question Solution Keys and Step-by-Step Explanations.

FLEXIBLE TEST ALLOCATION & SCHEDULING

Test Assignment System

Assign CBT mock tests to whole institutions, specific academic batches, or individual students with automated alerts.

Flexible Assignment Target Options

Whole Institution Assignment

Assign a test to all enrolled students across all active batches in one click.

Batch-Specific Assignment

Target a specific batch (e.g. NEET 12th Droppers) for targeted revision exams.

Individual Student Assignment

Assign custom diagnostic tests to individual students requiring remedial attention.

Automated Student Test Reminders

Institution admins can trigger instant test reminder alerts to assigned students. The system dispatches in-app notification alerts alerting students about upcoming or unattempted scheduled examinations.

Assignment Execution Steps

- Step 1** Select CBT test from the available test repository.
- Step 2** Choose assignment target (Institution / Batch / Student).
- Step 3** Set scheduled date and time window.
- Step 4** Dispatch instant test assignment notifications to student accounts.
- Step 5** Monitor live submission velocity and completion percentage.

HIGH-YIELD RESOURCES & HANDBOOKS

Digital Study Material & Handbooks

Distribute platform-approved eBooks, formula handbooks, and subject shortcuts directly to student accounts.

PHYSICS**NEET-UG High-Yield Physics Formula Handbook 2027**

Author: Edvedum Academic Panel

Complete formula summary, unit dimensions, and key derivation shortcuts for Class 11 & 12 Physics.

CHEMISTRY**JEE Main Organic Chemistry Mechanism Shortcuts**

Author: Kota Subject Experts

Named reactions, reaction mechanisms, reagent cheat sheets, and conversion shortcuts for Organic Chemistry.

MATHEMATICS**Class 10 Olympiad Mathematics & Logical Reasoning**

Author: Foundation Division

Advanced problem sets, geometry theorems, and mental ability practice modules for Class 10 students.

Digital Library Assignment Rights

Institution administrators have full rights to allocate unlocked digital eBooks and handbooks to whole institutions, specific batches, or individual students. Students can read resources directly from their Student Portal.

DEEP PERFORMANCE & ACCURACY METRICS

Analytics & Performance Engine

Transform raw test scores into actionable academic insights with subject breakdowns and accuracy distribution.

INSTITUTE MEAN ACCURACY

71.4%

Across all completed CBT attempts

TOP TEST SCORE

680 / 720

Highest score recorded in NEET Mocks

TEST PARTICIPATION

94.2%

Assigned student test completion rate

NEGATIVE MARK IMPACT

-14.2 Marks

Average marks lost to wrong answers

Subject-wise Accuracy Breakdown (Institute Average)

Physics

68.5%

Status: Moderate

Chemistry

78.2%

Status: Strong

Mathematics

64.0%

Status: Needs Revision

Biology

82.4%

Status: Outstanding

INSTITUTIONAL BENCHMARKING

Rankings & Leaderboards

Evaluate student standings with institutional rank lists, total score rankings, and percentile metrics.

RANK	STUDENT NAME	ROLL NUMBER	BATCH	SCORE	ACCURACY
#1	Aarav Sharma	EDV-2027-001	NEET Alpha	680/720	94.4%
#2	Priya Verma	EDV-2027-014	NEET Alpha	665/720	92.3%
#3	Rohan Gupta	EDV-2027-008	JEE Main 11th	275/300	91.6%
#4	Ananya Iyer	EDV-2027-022	NEET Alpha	640/720	88.8%
#5	Kabir Patel	EDV-2027-035	JEE Main 11th	258/300	86.0%

Rank & Benchmarking Capabilities

Institution-Wide Rank Lists

Automated ranking generated instantly across all enrolled students in the institution upon test completion.

Batch Rank Filtering

Filter leaderboards by specific academic batches to evaluate top performers within individual classroom cohorts.

Percentile Calculation

View relative student percentile scores based on test difficulty and institutional cohort performance.

Historical Performance Tracking

Track individual student rank progression across multiple consecutive mock tests over the academic year.

ASSESSMENT PARTICIPATION TRACKING

Attendance & Participation Module

Track examination participation rates, completed test attempts, unattempted assessments, and student attendance.

Test Attempt & Participation Audit

The Attendance module specifically tracks test participation rather than daily school gate attendance. It monitors whether assigned students attempted scheduled CBT mock exams, submitted within the time window, or missed test deadlines.

Participation Metrics Monitored

Completed Attempts

Students who successfully attempted and submitted the CBT mock examination.

Missed / Absent Tests

Assigned students who failed to log in or attempt the examination during the active date window.

Attempt Timestamps

Exact log of submission time, duration spent on exam, and network status.

Batch Participation Rate (%)

Percentage of enrolled batch students participating in assigned institutional assessments.

DATA EXPORT & ACADEMIC AUDITS

Institutional Reports & Exports

Generate and download comprehensive institutional performance reports and student rosters in structured CSV format.

CSV EXPORT

Student Roster & Accuracy Report

Full student list containing names, roll numbers, assigned batches, total tests attempted, and overall mean accuracy.

CSV EXPORT

Batch Performance Summary

Comparative batch metrics including batch average score, highest score, total students, and completion rate.

CSV EXPORT

Test Completion Audit Report

Detailed log of assigned tests showing submission timestamps, participation counts, and missed attempt lists.

PDF / CSV EXPORT

Institution Academic Overview

Executive summary report detailing total licenses used, active student roster, subject breakdowns, and top ranks.

Note: Reports are generated directly from live database tables and exported in standard UTF-8 CSV format for easy import into Excel or institutional ERP systems.

AUTOMATED ALERTS & NOTIFICATIONS

Notifications & Communication

Keep students and administrators informed with automated test assignment alerts, password resets, and in-app notifications.

In-App Notification Center

Centralized notification hub in student and institution admin portals with unread badges and read status controls.

Test Assignment Alerts

Automated notifications dispatched to student accounts whenever a new CBT test is assigned.

Credential Reset Notifications

Instant security alerts sent when temporary passwords or credentials are regenerated by administrators.

Upcoming Test Reminders

Automated reminders sent prior to scheduled test windows to maximize student participation.

TRANSPARENT B2B LICENSING MODEL

Licensing & Institution Tiers

Flexible student seat capacity licensing paired with specialized CBT test series packages for partner institutions.

EDVEDUM Institutional License Structure

Every partner institution receives an allocated Student Seat Capacity (e.g. 50, 250, 500, or 1000 seats) combined with assigned Test Series Packages. Seat limits are enforced dynamically upon student enrollment.

Standard Institutional Tier Examples

Starter School Tier

Capacity: 50 Student Seats • Package: NEET / JEE Foundation

Billing Model: Annual Invoiced | Contact sales for seat expansion requests.

Coaching Growth Tier

Capacity: 250 Student Seats • Package: NEET & JEE Mocks

Billing Model: Annual Invoiced | Contact sales for seat expansion requests.

Enterprise Hub Tier

Capacity: 500+ Student Seats • Package: Full AIETS Catalog

Billing Model: Custom Agreement | Contact sales for seat expansion requests.

ENTERPRISE DATA ISOLATION & ACCESSIBILITY

Security & Access Control

Multi-tenant architecture ensuring complete institutional data privacy, role-based authorization, and protected routes.

Multi-Tenant Institutional Isolation

Institution data is strictly isolated so administrators and students can only access their assigned school records.

Role-Based Access Control (RBAC)

Granular permissions differentiating Super-Admins, Institution Admins, Faculty, and Student accounts.

Encrypted Credential Storage

Passwords and authentication tokens are salted and hashed using industry-standard bcrypt encryption.

Protected Routing & HTTPS

All platform endpoints and portal routes are protected with JWT authorization tokens and HTTPS encryption.

SIMPLE 6-STEP PARTNERSHIP JOURNEY

Begin Institutional Assessment Today

Partner with EDVEDUM to bring NTA-standard CBT examinations and real-time performance analytics to your institution.

STEP 1 Request a Demo

Submit your institution details on /for-schools or contact the Edvedum team.

STEP 2 Academic Consultation

Discuss student capacity, target exams (NEET/JEE/Foundation), and package options.

STEP 3 Account Provisioning

Edvedum admin provisions institution account, seat limit, and credentials.

STEP 4 Student Roster Onboarding

Upload student roster via Bulk CSV import and create academic batches.

STEP 5 CBT Test Scheduling

Select AIETS test series packages and schedule mock examinations.

STEP 6 Analytics & Reports

Track live completion, class accuracy, institute rankings, and export CSV reports.

Bring Smarter CBT Assessment to Your Institution

Partner with EDVEDUM Today

Equip your students with official CBT examination practice, automated grading, and deep topic-level analytics.
